Chief, Industrial Division, ORR

Public Speech Engagement in Behalf of CIA

- 1. This is written in accordance with your telephone request dated 1 June.

 25X1A9a
- 2. At the request of products, I am addressing a luncheon meeting of the Machinery and Allied Products Institute on 8 June 1956. This has received the approval of the DDI, and I understand through it has also been approved by 25X1A9a the DCI.
- 3. The address is entitled "Soviet Postwar Industrial Growth" and it will be based entirely on unclassified sources. For the most part it will follow notes prepared by **Limitation** in connection 25X1A9a with an address he gave to the Machinery Institute Executive Committee in March, and it will follow the lines of a portion of Mr. Dulles' speech delivered in Cincinnati the latter part of April. The address will be given from notes rather than being read as a prepared speech.
